

Case Study

MCB Camp Lejeune, NC

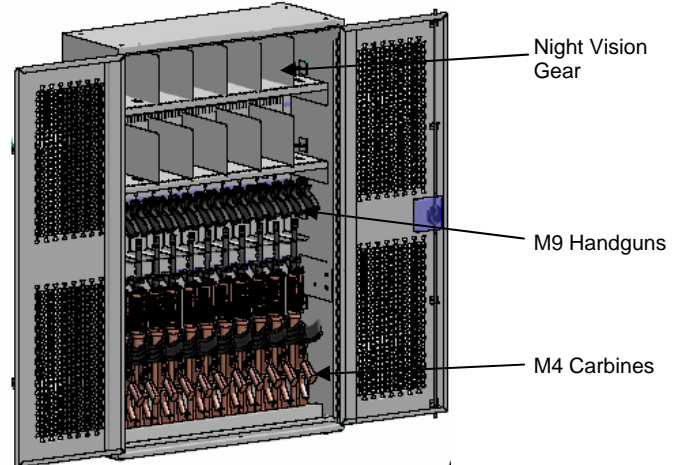

Armory Requirement:

Provide weapons and gear storage for 480 Marines.

Gear - per soldier:

- 1 M4 w/ ACOG and AN/PEQ-2 mounted
- 1 9mm pistol
- 1 PVS-14 NVG in soft pack
- 1 Bayonet

Additional storage for M2 .50Cal machine guns and MK19 GMGs

Mk6 Weapons Rack

The challenge :

To design an affordable solution to secure and store all weapons and equipment in a limited space. Provide ergonomic work flow to minimize armorer foot traffic and improve audits and inventory control.

Proposal:

Our proposal included Mk6 weapons racks. The unique features of the Mk6 rack allowed for storage and organization of each soldier's equipment vertically. Racks were organized on a mobile isle storage system maximizing ergonomic flow for the armorer.

M2 machine guns and Mk19 GMGs were stored in racks in an adjacent armory.

Award:

SecureIt was awarded the contract primarily based on our ability to provide a system with superior organizational ability. The flexibility of the SecureIt weapons storage platform allows for possibilities no other solution can offer. All racks can be quickly reconfigured at any time to hold virtually any infantry weapon.

Mobile Isle storage system

M2 Weapons Racks

The leader in weapons storage and armory design

SecureIt has designed and installed weapons storage solutions for all branches of the military throughout the world. Our experience working closely with armorers gives us a thorough understanding of the needs of the modern military armory.

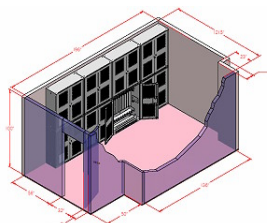

The new standard in armories across North America. SecureIt racks can accommodate weapons ranging from 9mm handguns and the smallest Uzi to M2 .50 cal. machine guns. SecureIt racks meet OPNAVINST 5530.13C & AR 190-11 for arms storage requirements.
